Health 4.0 training to boost digital
transformation of EU healthcare sector

eucare40.eu
facebook.com/EUcare4.0

OBJECTIVE

To support the digital transformation of EU healthcare by contributing to the development of the digital skills, competences and knowledge needed for efficiently applying and using the Health 4.0 principles and underlying technologies in the mental health sector.

Target groups

VET trainers that deliver various trainings to mental health specialists

Mental health specialists such as psychiatrists, psychiatric nurse practitioners, psychologists, social workers, and counsellors

Partner organisations, which are interested in providing up-to-date services, training and consultancy related to mental health sector.

PROJECT RESULTS

R1

Introducing Health 4.0 to mental health specialists

A publication designed to provide VET teachers/trainers/mentors and mental health specialists with relevant knowledge about Health 4.0 and its underlying technologies applicable in the mental health sector.

R2

EUcare4.0 modular training components

An innovative curricula and relevant course content focusing on Health 4.0 and its underlying technologies applicable in the mental health sector.

R3

EUcare4.0 e-learning space

An innovative learning place allowing for flexible access to the developed training resources. It includes:

- 1) Introducing Health 4.0 to mental health specialists
- 2) A set of case studies about Health 4.0
- 3) EUcare4.0 modular training modules
- 4) EUcare4.0 trainer guidelines
- 5) Evaluation and certification tools

*All results will be available as Open Educational Resources (OER) in 5 languages (EN, FR, ES, RO, EE).
